

Section 1 - Identification of The Material and Supplier

Ensystem Australasia Pty Ltd
Warehouse D, Building 6,
The Switchyard
161 Manchester Road
AUBURN, NSW 2144
13 35 36 (all hours)

Ensystem South Africa (Pty) Ltd
Building 3, The Burns Business Park
12A Jet Park Road, Jet Park
Boksburg GAUTENG

Ensystem New Zealand Ltd
17C Corinthian Drive
Auckland, Auckland 0752

080 367 9783

0800 ENSYSTEMEX (0800 367 978)

Product Nature: Non-toxic plastic rodent bait Stations.

Trade Name: **RODENTHOR® Rodent Stations**

BETA, CORAL, NEPTUNO, PETI, ALPHA, PILOT, ROCK, MAXX, ERIS

Product Use: Black plastic station for placements of baits for rodent control programs.

Creation Date: **June, 2017**

This version issued: **April, 2024** and is valid for 5 years from this date.

Section 2 - Hazards Identification**Statement of Hazardous Nature**

This product is NOT classified as hazardous according to the criteria of SWA.

Not a Dangerous Good according to the Australian Dangerous Goods (ADG) Code.

SUSMP Classification: None allocated.

ADG Classification: None allocated. Not a Dangerous Good according to Australian Dangerous Goods (ADG) Code, IATA or IMSBC criteria.

IATA: Non-Hazardous for Air Transport.

UN Number: None allocated

GHS Classification: Not hazardous

GHS Signal word: NONE.

HAZARD STATEMENT: -

PREVENTION

RESPONSE

STORAGE

DISPOSAL

Emergency Overview

Physical Description: Black plastic station for placements of baits for rodent control programs.

Odour: None.

Major Health Hazards: No significant risk factors have been found for this product.

Potential Health Effects**Inhalation:**

Short term exposure: Available data indicates that this product is not harmful.

Long Term exposure: Available data indicates that this product is not harmful.

Skin Contact:

Short term exposure: Available data indicates that this product is not harmful.

Long Term exposure: Available data indicates that this product is not harmful.

Eye Contact:

Short term exposure: Unlikely due to presentation. Available data indicates that this product is not harmful.

Long Term exposure: Unlikely due to presentation. Available data indicates that this product is not harmful.

Ingestion:

Short term exposure: Unlikely due to presentation. Available data indicates that this product is not harmful.

Long Term exposure: Unlikely due to presentation. Available data indicates that this product is not harmful.

SAFETY DATA SHEET

Carcinogen Status:**SWA:** No significant ingredient is classified as carcinogenic by SWA.**NTP:** No significant ingredient is classified as carcinogenic by NTP.**IARC:** No significant ingredient is classified as carcinogenic by IARC.**Section 3 - Composition/Information on Ingredients**

| Ingredients | CAS No | Conc, % | TWA (mg/m ³) | STEL (mg/m ³) |
|-----------------|------------|---------|--------------------------|---------------------------|
| HDPE | 9002-88-4 | >98% | not set | not set |
| Stainless Steel | 65997-19-5 | < 2% | not set | not set |

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non-hazardous ingredients are also possible.

The SWA TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5-day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak "is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

Section 4 - First Aid Measures**General Information:**

You should call a doctor or hospital if you feel that you may have been poisoned, burned, or irritated by this product. Have this SDS with you when you call.

Inhalation: Unlikely to occur.**Skin Contact:** Wash with soap and water.**Eye Contact:** No toxic effects expected.**Ingestion:** Unlikely to occur.**Section 5 - Fire Fighting Measures**

Fire and Explosion Hazards: The major hazard in fires is usually inhalation of heated and toxic or oxygen deficient (or both), fire gases. There is no risk of an explosion from this product under normal circumstances if it is involved in a fire.

Fire decomposition products from this product may be toxic if inhaled. Take appropriate protective measures.

Extinguishing Media: Not combustible. Use extinguishing media suited to burning materials, preferably foam, carbon dioxide, water/water mist or dry chemical. Do not use a high pressure water-jet.

Fire Fighting: If a significant quantity of this product is involved in a fire, call the fire brigade.

Flash point: N/A.**Upper Flammability Limit:** N/A.**Lower Flammability Limit:** N/A.

Autoignition temperature: Can melt and burn in a fire. Molten material tends to flow or drip and will propagate fire.

Section 6 - Accidental Release Measures

Accidental release: Not usually a cause for concern.

Section 7 - Handling and Storage

Handling: Check Section 8 of this SDS for details of personal protective measures, and make sure that those measures are followed. Avoid contact or contamination of product with incompatible materials listed in Section 10.

Storage: Store in a dry, cool, well-ventilated area out of direct sunlight. Make sure that the product does not come into contact with substances listed under "Incompatibilities" in Section 10.

SAFETY DATA SHEET

Section 8 - Exposure Controls and Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: AS/NZS 4501 set 2008, Industrial Eye Protection: **AS1336** and **AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS2210**.

SWA Exposure Limits TWA (mg/m³) STEL (mg/m³)

Exposure limits have not been established by SWA for any of the significant ingredients in this product.

No special equipment is needed. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Ventilation: No special ventilation requirements are necessary.

Eye Protection: Not required.

Skin Protection: This product is not harmful; no skin protection is necessary.

Section 9 - Physical and Chemical Properties:

Physical Description & colour: Black plastic station for placements of baits for rodent control programs.

Odour: Odourless.

Boiling Point: Not available

Freezing/Melting Point: No specific data

Volatiles: None

Water Solubility: Insoluble.

Section 10 - Stability and Reactivity

Reactivity: This product is unlikely to react or decompose under normal storage conditions.

Conditions to Avoid: Store in a dry, cool, well-ventilated area out of direct sunlight.

Incompatibilities: Strong oxidising agents.

Fire Decomposition: Combustion forms carbon dioxide, and if incomplete, carbon monoxide and possibly smoke. Carbon monoxide poisoning produces headache, weakness, nausea, dizziness, confusion, dimness of vision, disturbance of judgment, and unconsciousness followed by coma and death.

Polymerisation: This product will not undergo polymerisation reactions.

Section 11 - Toxicological Information

Toxicity: Considered non-toxic.

Classification of Hazardous Ingredients

No ingredient mentioned in the HSIS Database is present in this product at hazardous concentrations.

Section 12 - Ecological Information

Plastic and steel is recyclable.

Section 13 - Disposal Considerations

Disposal: Dispose of by putting in garbage. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.

Section 14 - Transport Information

ADG Code: This product is not classified as a Dangerous Goods by ADG, IATA or IMSBC criteria. No special transport conditions are necessary unless required by other regulations.

IATA: Non-Hazardous for Air Transport.

Section 15 - Regulatory Information

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

SAFETY DATA SHEET

Section 16 - Other Information

This SDS contains only safety-related information. For other data see product literature.

Acronyms:

| | |
